

## Symbols (Multiage Differentiated Curriculum for Grades 1-3) (Multiage Curriculum - Primary)

Symbols, a book in the Multiage Differentiated Curriculum Kit for Grades 13, gives students the opportunity to explore what symbols are and why they are used. The books in Prufrocks new Differentiated Curriculum Kits employ a differentiated, integrated curriculum based on broad themes. This all-in-one curriculum helps teachers save planning time, ensure compliance with national standards, and most importantly, pique their students natural excitement and interest in discovery. By participating in the wide variety of activities in the Multiage Differentiated Curriculum Kit for Grades 13, students will discover the symbols around them and gain a lifelong desire to learn. Although we are surrounded by symbols for most of our lives, we take most of them for granted. In this study, students will learn why symbols are used, where they originated from, and how they are universally accepted. Symbols presents study of todays practical symbols, as well as ancient symbols from Chinese and Mayan cultures. Symbols, along with the other books in the Multiage Differentiated Curriculum Kit for Grades 13 (Cycles, Discoveries, Faces, and Gifts), makes teaching advanced learners easier! This curriculum unit makes use of the following great childrens literature books: The Paper Bag Princess by Robert Munsch; The Flying Dragon Room by Audrey Wood; Kingdom of the Sun: A Book of the Planets by Jacqueline Mitton; Math Curse by Jon Scieszka; Uncle Same and Old Glory by Delno C. West; and Thunder Cake by Patricia Polacco.
