Reflection
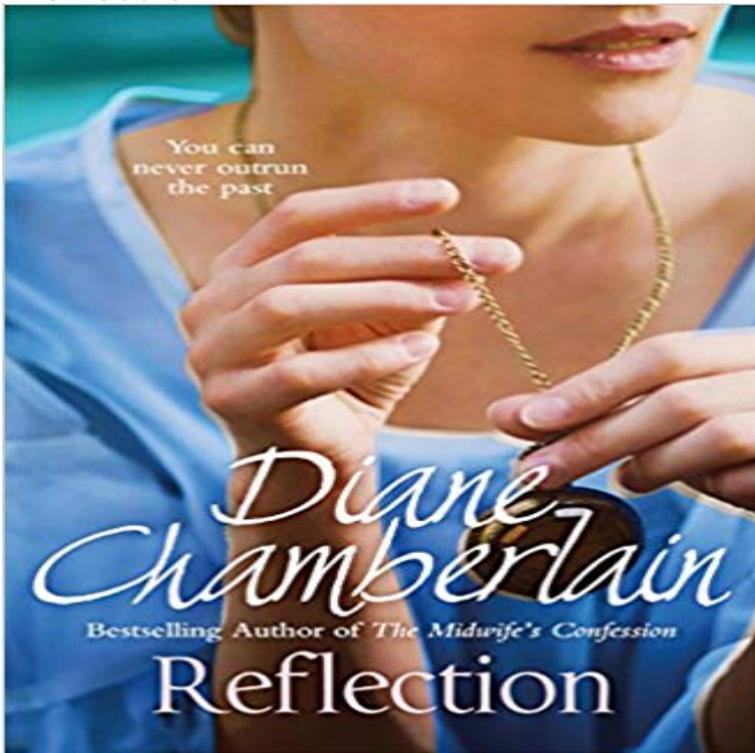

Guilt and small town gossip come to a head in Diane Chamberlains incredibly moving Reflection.You can never outrun the past... Twenty years ago, a terrible tragedy shattered the tranquillity of the small Pennsylvania Dutch town of Reflection. The residents of the village have never forgiven the one woman they blamed for what happened - Rachel Huber. After the incident, Rachel left the town and cut off all ties there. But when Rachel receives the news that her estranged grandmother, Helen, is ill and needs her care, she returns to Reflection. On arrival she discovers that the town has not forgotten the past and amongst the hostility and gossip, Rachel is forced to seek out old allies and new passions. Soon she finds an unlikely advocate in her grandmother, who surprises her with her wise counsel and rare strength. Rachel comes to realize that they are both trying to overcome the past, and in doing so brings private guilt and concealed secrets into the light.
