

Once More With Feeling

Elisabeth Whitfield is having a doozy of a midlife crisis, but that midlife is about to take an extraordinary turn. Following a near-fatal car wreck, the Elisabeth who awakens in the hospital is a new woman, in someone else's younger, sexier body. Now she has a second chance at the exciting life she gave up to marry and be a full-time mother. But be careful what you wish for could be more than a cliché. Getting everything she wanted might cost her everything that matters. Publishers Weekly calls *Once More With Feeling* a seductive women's daydream, and Library Journal says: This perceptive story is sure to tap into the fantasies of readers who wonder what life would have been like if they had a chance to be someone else.
