

Risky Engagement (Code Name: Danger)

Secret Service Agent: Rafe Blackstone
Codename: Wolf
Mission: Prevent breaches in U.S. government security by any means necessary. Bring down Sebastian Cordell, international thief suspected of selling top-secret technology to the highest bidder.
Method: Zero in on target in Cabo San Lucas, Mexico and persuade sexy, brilliant medical researcher Dr. Nina Grant to help secure his undercover identity as her fiancé.
Obstacle: It's too easy to be engaged to Nina. Despite the dangerous circumstances of their alliance, the peril excites her. The intrigue is powerful; the attraction sizzling between them, unstoppable. In the end he must choose: keep Nina safe by walking out of her life, or be her only protector forever.
