

## Turning North

The theft of a religious relic has the village of Durum in an ethical quandary. The theft has also caused trouble within the monastery, the nunnery and St Annes church located in the village. The interaction among the brothers and sisters at Durum monastery and nunnery and those charged with overseeing Durum takes these men and women on a journey to and from the towns and villages of the Frankish Kingdom and to the center of spiritual power in Rome. The adventure concludes as Charlemagne and Pope Leo III make history on Christmas Day 800 AD.
