Sondra had always been a romantic at heart. But there was no romance left in her life, as she was forced to marry one of her stepfathers dangerous and narcissistic associates to satisfy an unknown agreement she had nothing to do with. But things changed when she met him. Aiden was a rugged cowboy who always got the girl. But when he met Sondra, it was like he finally met his match. While at first they bumped heads, eventually neither of them could deny the sparks between them. When Sondra shares her story of being prisoner in her own home, and married to a man she doesnt love they come up with a plan. Aiden would come and rescue her in the middle of the night, and together they would run off to a far away continent where no one could find them, and be in love. But things dont turn out exactly how they expected and their journey is just the start to an emotion filled ride, with the ups and downs of the road, including drama, betrayal, rivalries, longing and loss, all while on the run from those they most fear.
