

Rule Breaker

Locks, keys and prison bars cant contain a love thats meant to roam wild and free, but when that love is let loose, will Lacey be able to handle whats heading her way? Rules are meant to protect the innocent and keep danger at bay except for me. The lines blur, and it all started when I met the ultimate bad boy. But is he? Miller Davenport might be big, bad and brimming with sin but hes confessed his crimes and for ten years hes served his time and walked the line. Everyone deserves a second chance, right? And as his nurse the one person who understands him I cant help but count the days till we can be together properly, without guards watching over us and without every look and word we share censored. When that day comes, though, will our desire for each other explode and take me to the new heights hes promised? And if so, how will I survive such intensity? One thing is for sure. With Miller Ill be whisked up in a whirlwind of his dark energy and a tornado of his lust, and likely taken to the very edge of what I can handle. I cant help a few nerves, though, as release day approaches, because if it all comes crashing down, who can I depend on when Ive ridden into the sunset with a man whos broken all the rules? Will I be saved or will I have pushed everyone and everything too far?
