

Safe People: How to Find Relationships That Are Good for You and Avoid Those That Arent

Too many of us have invested ourselves into relationships that left us deeply wounded. Weve been abandoned or taken advantage of, and left with little to show for what weve given. Weve lost our sense of security and personal value in the process. And whats worse, we tend to either repeat the same mistakes of judgment over and over ... Or else lock the doors of our hearts entirely and throw away the key. Why do we choose the wrong people to get involved with? Is it possible to change? And if so, where does one begin? Drs. Henry Cloud and John Townsend offer solid guidance for making safe choices in relationships, from friendships to romance. They help identify the nurturing people we all need in our lives, as well as ones we need to learn to avoid. Safe People will help you to recognize 20 traits of relationally untrustworthy people. Discover what makes some people relationally safe, and how to avoid unhealthy entanglements. Youll learn about things within yourself that jeopardize your relational security. And youll find out what to do and what not to do to develop a balanced, healthy approach to relationships.
