

Saints and Their Cults: Studies in Religious Sociology, Folklore and History

This is a paperback edition of a collection of ten papers by different authors on the cult of saints, first published in hard covers in 1983. Six have been translated from French including a pioneering study by Robert Hertz, one of Durkheim's most eminent pupils. The editor provides a wide-ranging general and historical introduction, and a 100-page annotated bibliography covering material on the subject in all disciplines and in four main languages.
