

## Secrets Series: Internet Dating (Attract the Man or Woman of Your Dreams Online)

So you are considering internet dating? Really? Isn't that a bit geeky and uncool? Well the answer is no, not anymore and in fact it is fast becoming a most common birthplace of many new relationships. The stigma attached to finding a partner online is rapidly declining and whilst many couples will have a pre-agreed back story to cover up their true virtual meeting place you will find the numbers of internet couples growing exponentially. All that said and before you begin to glow with anticipation of the amazing hunk or stunning princess that awaits you in the electronic world it is worth noting that the vast majority of people on dating sites get it hopelessly wrong. As with all other areas of success in life, attracting the man or woman of your dreams online is not something you can assume you are just going to stumble upon one day. Attraction isn't a random occurrence, and in the same way you wouldn't set out to build a house with no plans hoping fate will deliver your soulmate is unproductive waste of time and energy. In the Secrets Series by number one bestselling author and human behavior expert Craig Beck you will discover: The ten biggest mistakes people make on dating sites Writing a killer profile description Getting the first approach right Spotting the signs of attraction Dealing with rejection Building your confidence and self esteem The secret to getting the perfect internet dating profile picture
