

Christian Philosophy And Presuppositions Critique Mormonism: How Van Tils Thought Refutes the Religion of Joseph Smith (Presuppositional Apologetics Refutes False Religions and Cults Book 5)

Christian Philosophy & Presuppositions Critique Mormonism is not just another book in the standard collection of recent works refuting the Mormon faith. The great majority of books which disprove Mormonism use arguments that demonstrate the absurdity of the claims of the Book of Mormon & Joseph Smith. Instead, Robinson deploys unique How-to arguments which refute Mormonism at its core. Less Robinson uses innovative and helpful arguments which refute Mormonism at its foundation. He demonstrates that the LDS god/gods fail to provide the necessary rational environment to be able to account for anything in the world. The author proves that Mormonism actually invalidates itself. Amazing! The truth Mr. Robinson provides makes the argument against Mormonism rationally and morally inescapable and unshakable. The LDS doctrines (a god progressing, or the earths god once being a man) are carefully refuted and demonstrated as impossible. He not only exposes the horrendous errors of Mormonism as untenable, unlikely, and nonsensical, he undermines the whole LDS system using scriptural truths, the laws of logic, moral absolutes, and philosophy. Christian Philosophy and Presuppositions Critique Mormonism discusses How To: Disprove Mormonism using the Laws of Logic and Moral Absolutes Demonstrate that the God of the Bible alone lives Rationally defeat the LDS doctrine that God is a physical being and was once a man Learn the certain argument for Christianity Discover that a false notion (such as the many gods of Mormonism) presupposes the true God and more (including some material influenced by Cornelius Van Til, Greg Bahnsen, Walter Martin, James Spencer, Ed Decker and James White). Robinsons fresh formulation is unique, impressive, and powerful. Mormons are not ready for this approach which rebuts LDS doctrine

using the twin destroyers: the laws of logic and moral law. This book discusses some difficult terms and ideas, but the author makes them easy to understand, simple to apply, and very appealing. Herein you learn how to use biblical truth to not only confound the unbelievers, but to bring them to the true Jesus Christ. No matter what counter-cult LDS book you buy, add this unique book to your arsenal for it will win hearts and minds in startling ways. The author demonstrates that Mormonism rationally falls by the hands of presuppositions, facts, and evidence as Mormonism cannot dodge the presuppositional truth.
