

Two Versions: The Other Side of Fame and Family

Bill Hudson of the Hudson brothers, ex-spouse of Goldie Hawn, explores in this book aspects of the family dealing with fame, marriage, divorce, and the ugliness that can cause relationships between parent and child to become stilted. Bill explores his life, beginning with meeting Goldie Hawn, their early life together, and trying to maintain a connection with his children during the complications of their lives. In doing so he covers the bitter side of divorce, his own foibles, as well as such issues as parental alienation and fathers rights. Not a Hollywood tell-all, but instead an emotional outreach to those who have been in or are in the same situations Bill saw.
