

The Conspiracy Files: Books 1-4

A conspiracy to assassinate a President? Nothing has generated as many conspiracy theories and rumours of cover-up than the assassination of US President John Fitzgerald Kennedy, JFK, in November 1963. As Kennedys motorcade made its way past the Texas School Book Depository in Dallas, Texas, shots rang out and the President was struck in the head. Despite being rushed straight to hospital, JFK was pronounced dead just a few hours later. Did the English aristocracy come together to protect one of their own? In November 1974, the Lucan family nanny Sandra Rivett was bludgeoned to death their fashionable Belgravia townhouse. Lord Lucan was identified as the attacked by his wife, who was also assaulted, and the peer fled London in a borrowed car. The car was later found abandoned in the British coastal town of Newhaven, but Lucan was never located. A cover-up to protect an influential killer? Its January 1947, and a gruesome discovery is made in a vacant lot in Leimert Park, Los Angeles - the body of a woman, mutilated and sliced in two at the waist. The dead woman, identified as Elizabeth Short, was soon nicknamed the Black Dahlia by a press that was eager to sensationalise such a lurid murder case. Did US law enforcement conspire to hide one of their biggest mistakes? Its November 1971, and a Northwest Orient Airlines Boeing 727 en route to Seattle, Washington is hijacked by a man who went on to demand a \$200,000 ransom before parachuting from the plane and apparently disappearing. A small bundle of bills carrying the serial numbers of the bills paid to Cooper would later surface in a riverbed in 1980, but no other trace of the hijacker would ever be found. The Conspiracy Files series lifts the lid on some of the worlds most notorious mysteries, unexplained events and possible conspiracies. The narrative examines the accepted version of events, considers their

veracity, and investigates the potential for conspiracy and cover-up. There are a total of eight books in the Conspiracy Files series, with multi-book bundles comprising four books offering the best value for money.
