

Some of My Best Friends Are Books: Guiding Gifted Readers (3rd Edition)

Good books are often good friends. Because gifted readers often intensely identify with characters, good books can provide bridges to new insights and better communication of feelings, values, and decision making, while also fostering intellectual and creative development. Now in its third edition, *Some of My Best Friends Are Books* describes: Intellectual and emotional needs of children of high ability; Typical and advanced reading patterns for grades K-12; How parents and teachers can give reading guidance and discuss books with young readers; A well-indexed annotated bibliography of more than 300 books for readers of all ages, carefully selected to promote intellectual and emotional development; Books that deal with themes such as Achievement, Aloneness, Arrogance, Developing Imagination, Intensity, Introversion, Perfectionism, Relationships with Others, Sensitivity, and Resiliency; and An index with suggested titles for each theme and the page numbers for short summaries of these titles
