

Orchestrating Manoeuvres

The life of a broken hearted supermodel can get pretty dull-there's only so much champagne and caviar one can handle. So, when the opportunity to hook up with two stunning Italian pianists with talented fingers, perfect rhythm and sublime composing presented itself, what could I say but yes, yes yes! I have everything a girl could want; money, beauty, friends in high places. So why does it feel as if there's a hole the size of Antarctica in my soul? Because missing Dale has become a way of life and now instead of making love to the man of my dreams I rely on my battery-powered Rampant Rocker and spend my days dodging work and slugging champagne-until, that is, the two heart-stoppingly gorgeous Italian pianists who make up Ingresso Livello decide they want me. Sing praise to the Lord! That was a red letter day, I can tell you! Being asked to appear alongside them was risqué and controversial and set many tongues a-wagging. Plus they had a very unique way of thanking me for my troubles-turns out these two delectable musicians were as talented at creating erotic delights in the bedroom as they were at playing mesmerising music on stage. Just the medicine for my broken heart? Well, it was certainly a deliciously sexy distraction and I would never, ever listen to the tinkling notes of a grand piano the same way again. And as for my broken heart? Well, it felt a whole lot better when everything slotted neatly into place.
