

Starting Over

Eve Bolton is at a crossroads in her life. After caring for her beloved aunt during a terminal illness and coming to terms with the fact she may never be able to get pregnant, she retreats to her childhood home, where she's not just the wife of a business tycoon, she's someone the townspeople know and love. This gives Eve a sense of identity she thought she lost. When her husband asks her to come home, she decides it's time for her to start over alone. Alex Bolton has been so preoccupied running his family's business that he lost sight of what's important. Eve. He knows she's been going through a difficult time, between trying to get pregnant and losing the woman who raised her, but he never expects her to tell him she's leaving him. He knows he has a lot to make up for, but he's willing to do whatever it takes. The question is, will it be too late to save their marriage?
