

## All My Friends Were Me: Hearing Voices While Living on the Streets

Jim Williams was a teenage prodigy granted a letters patent before his high school diploma, but, the real story of this memoir doesn't start for another 20 years. While inheriting a small trust income, he became homeless and thoroughly insane. An on and off street person for the next 15 years, he hears unreal voices for eight of those years. He believed he was a reigning World President. A near fatal assault puts him permanently off the streets. From his hospital bed, he began to write. First, expressing his outrage, he eventually honored the people who came to his aid. ALL MY FRIENDS WERE ME illustrates a truth that no one needs to be greater than who they already are.
