

Deep Breath

When a guy stops at a roadside diner, he expects bad chili, not a hostage situation. But that's where SG-5 operative Harry van Zandt finds himself when an armed cartel blows through the door. They're not after him but the woman in the next booth, and their message is clear: she's got seventy-two hours to locate and deliver a valuable historical document or her brother dies. And if Harry wants to live, he'd better go with her. Not that he minds helping Georgia McLain. The tough treasure hunter is as smart as she is sexy. But she needs Harry if she's going to double-cross these thugs and clear her father's name. Too bad the document is also of vital importance to Harry's top-secret mission. Now, the beautiful, infuriating woman he's starting to fall for could lead him right to what he needs - and what she so desperately wants.
