

Language Arts for Gifted Learners: The Practical Strategies Series in Gifted Education (Practical Strategies in Gifted Education)

Language arts is a complex subject area that includes multiple domains (reading, writing, speaking, and listening) and can be infused into many other content areas throughout the school day. Students who are gifted in any area of the language arts need consistently challenging and stimulating instruction. Language Arts for Gifted Learners is written by two classroom teachers specifically for classroom teachers. Designed to be an initial resource for teachers seeking to add to their instructional repertoire, it provides specific strategies that teachers can use to meet the needs of their gifted language arts students both in the language arts classroom and beyond.
