

The Midwives Child (Mills & Boon Medical)

A brilliant new consultant joining a busy Obs and Gynae unit should be good news except Jed Matthews is the last person Brooke wants to see again. Her shock at coming face to face with the man who had brought her body and soul to life for one magical night six years ago pales beside the realization that Jed is eventually going to discover her secret. Brooke had her reasons for disappearing, but will Jed ever understand them especially when he meets her young son, Toby?
