

The Gospel According to The Da Vinci Code: The Truth Behind the Writings of Dan Brown

Dan Brown's *The Da Vinci Code* has become the best-selling hardcover adult novel of all time, spouting a tenuous postmodern worldview akin to the age-old heresy of Gnosticism. Though Gnosticism has been refuted repeatedly throughout the history of Christianity, and many of Brown's sources have been proven frauds, people are still reading Brown's books to become enlightened. *The Gospel According to The Da Vinci Code* not only refutes the philosophies behind this blockbuster book. It also looks at Brown's other writings to form a clearer picture of the worldview that guides his writings, why this worldview is so popular and what the church must do in response.
