

## The Last American Mercenary

There is the world that we live in, and then there is another place that only gets mentioned at the end of news clippings and censored war footage. This other place is full of smoke and violence and twisted metal. The men that live in this world are everyday people ... pushed to extremes by circumstance and nature and in some cases greed. Take a firsthand journey through the eyes of one American who found himself surrounded by contract killers, political assassins, militants, and terrorists. Men who were willing to trade the fundamental rules of a civilized society for money, idealism, fanaticism ... and violence. Men who don't have to live by laws, or treaties, or borders of any kind; unencumbered by the morality that most are accustomed to. From the U.S. Navy, to a convicted Arms-trafficker, on the run from the U.S. Government, and eventually turning to the use a different set of skills to disappear. See, for yourself, how a hired-gun survives off the grid, ending up in the French Foreign Legion. Experience the darker side of men; where the only thing that matters is conflict ... and how far they are willing to submerge themselves in it to define their identity.
