LAW OF SUCCESS VOLUME II The Revised, Updated, and Most Complete Edition Ever Published of America's Most Influential and Bestselling Motivational Masterwork In 1928 Napoleon Hill stunned America when he published the first edition of Law of Success. It was an instant bestseller—unlike anything anyone had ever read before. Aimed at the average person, it offered the collective wisdom of America's most successful business leaders and it promised readers that if they followed the step-by-step advice, they too would achieve success. And they did. By the hundreds, then the thousands, and finally by the millions. **NAPOLEON HILL AND MODERN MANAGEMENT** This new edition of Law of Success correlates the latest management theories with Hill's Principles of Success, and cross references his success-consciousness techniques with concepts as contemporary as Emotional Intelligence and Creative Visualization. This updated edition shows in example after example that Napoleon Hill's 17 Principles are as up-to-date as this morning's headlines.
