

The Shift: Taking Your Life From

As we contemplate leaving the morning of our life, where ego has played a commanding role, and entering the afternoon (and evening), where meaning and purpose replace ambition and struggle, we may encounter unexpected occurrences that accompany this new direction. Its almost a universal law that well experience a fall of some kind. Yet these falls or low points provide the energy we need to move away from ego and into a life of meaning and purpose. The Shift doesnt mean that we lose our drive and ambition; it signifies that we become ambitious about something new. We make a commitment to living a life based on experiencing meaning and feeling purposeful, rather than a life based on never-ending demands and false promises that are the trademark of the egos agenda.
