

The Unstoppable You

John Davidson, founder of the HLP Group has been observing, directing, and instructing experienced entrepreneurs from \$1M-\$10M in revenue since 1998. Its time for a fundamental shift in how we become higher quality human beings, useful to others and the Earth itself, says John. We live in the Conceptual Age today, where financial success and wealth creation comes from right brain creativity, not left brain tasks. Yet innovation isn't a priority in our most powerful institutions. Consequently, in an interconnected global economy, today's entrepreneurs are finding it harder to make the competition disappear, do what they love most, deliver a significant impact, and enjoy the rewards. The Unstoppable You is a way of thinking and operating that makes you the most useful human being you can be, by directing your attention from implicit personal gifts and practical wisdom to bring something to the world that no one else can, all within a deeper sense of purpose.
