

Everybody Ahead: Or Getting the Most out of Life (Timeless Wisdom Collection Book 27)

EVERYBODY AHEAD is one of the latest books published by Marden, and among the best ones. Written 22 years after Pushing to the Front, the maturity of his philosophy and his writing shows in every page. Anybody who had ever doubted his or her capacity of achievement; or had faced failure thinking that was it, should read this book. In each beautifully written page you will find gems of wisdom such as: When you get into a tight place and everything goes against you, until it seems you cannot hold on one minute longer, do not give up. That is just the place and time the tide will turn. The tonic of success is a marvelous producer as well as stimulant. By the law of mental magnetism one success attracts another, and after we begin to win it is comparatively easy to keep on winning. The great miracles of civilization have been wrought by the men and women who had so set their heart on their aim that nothing could keep them from pressing on. What can you do with somebody who has such a passion for achieving his hearts desire that he braves innumerable dangers, starvation, and death even, rather than give up? When a person is willing to stake all of his future, his property, his reputation, everything he possesses in the world, even existence itself, upon the fulfillment of his hearts desire, there isnt much you can do with him but let him go ahead. After these gems, I can only add that the broadness of his education in history, philosophy, spirituality and more, and his ability to condense and transmit knowledge with remarkable clarity -in an entertaining and engaging way, make these readings a requirement for whoever in this life is searching for success, or just looking for lifes answers.
