

## Got It Bad

Infatuation smolders in a quarantined laboratory, as rival scientists fight to survive and to control their overwhelming desire. Dr. Mack McKissack, a renowned scientist for the Centers for Disease Control and Prevention, is certain Dr. Kurt Andropov is hiding something in his fortress of a laboratory. Suspecting that the maverick genius work involves deadly bacteria, she storms into his lab demanding answers. But the renegade researcher stonewalls her until a shocking laboratory accident forces them into a two-week isolation period. Quarantined with a man she despises, Mack can't believe she feels attracted to him. And with each passing hour, their longing only grows deeper even while the threat of a catastrophic outbreak rises. Will Mack risk a final chance at love with a man she barely trusts? This ebook features an extended biography of Mary Kay McComas.
