

A Gammas Choice (The Under Wolves Book 1)

The Under Wolves: War is brewing with the vampires and the werewolves need to eradicate them all or be destroyed. The undead despise werewolves and have no problem sucking them dry and tossing aside their corpses. Finding their mates make the werewolves stronger but what happens when their mates aren't Alphas? Under Wolves. What happens when the Alphas are not necessarily the ones in charge? Gammas and Omegas might be submissive in life but when love comes along, they will do whatever necessary to protect the ones they've claimed for themselves. A Gamma's Choice by Amber Kell Book one in The Under Wolves Series Sometimes werewolves are the good guys. Kaden has always dreamt of cooking. His family scoffs at his wish to help out the war effort and think he's wasting himself joining a pack. Gage is the Alpha of his pack and loves his mate Russ with everything he has. But, although the beta wolf loves him back, Gage isn't Russ' mate. In a quirk of nature, their bond is one-sided and while Gage holds as tightly as he can, he can feel his lover slipping away. Russ loves his Alpha, but a piece of him always longs for what could be. He doesn't want to hurt his lover-but how much better would life be if he could have a mate of his own? Three men with different goals discover the difference between love and mating and how sometimes what you want may not necessarily be what you need. Amber Kell About the Author: Amber is one of those quiet people they always tell you to watch out for. She lives in Seattle with her husband, two sons, two cats and one extremely stupid dog.
