

Steve Pavlina: Life After Death (StevePavlina.com Book 10)

Do you believe in life after death? What do we really know about what happens after death? Instead of launching into stories about near-death experiences and what various religions say, lets try sneaking up on this problem from a different angle. Lets ask this question instead: What can we reasonably say does NOT happen after death? So we have a couple alternatives that seem reasonable to me: 1. After we die we retain some part of our consciousness, but all the physical parts of our existence are lost. 2. After we die we cease to exist. Our consciousness gets wiped out along with the physical. Dead and gone forever. This book is composed of the articles from StevePavlina.com website.
