

## Unrequited: Women and Romantic Obsession

The summer Lisa A. Phillips turned thirty, she fell in love with someone who didn't return her feelings. She soon became obsessed. She followed him around, called him compulsively, and talked about him endlessly. One desperate morning, after she snuck into his apartment building, he picked up a baseball bat to protect himself and began to dial 911. Her unrequited love had changed her from a sane, conscientious college teacher and radio reporter into someone she barely recognized—someone who was taking her yearning much too far.

In *Unrequited*, Phillips explores the tremendous force of obsessive love in women's lives. Interweaving her own story with frank interviews and in-depth research in science, psychology, cultural history, and literature, Phillips describes how romantic obsession takes root, grows, and strongly influences our thoughts and behaviors. As she illuminates this mysterious psychological experience, placing it in a rich and nuanced context, Phillips offers compelling insights to help any woman who has experienced unrequited obsessive love and been mystified and troubled by its grip.
