

An Emerson Calendar, 1905 (Classic Reprint)

Excerpt from An Emerson Calendar, 1905 It would hardly be possible, however, even in the course of three hundred and sixty-six short quotations, to give anything like an adequate outline of Emersons teachings. The most one can hope for is that these selections may help to a clearer perception of life and its obligations, and to a greater reverence, admiration and love for a writer whose utterances lose nothing of their significance with the lapse of time. Surely, a little of his wisdom and poise are needed in an age when the stir and glitter of ever changing surfaces so distractingly obscure the movement of the great forces that make for serenity, steadfastness and joy.
