

Trust: A Novel

Money and conscience are at the heart of Cynthia Ozick's masterly first novel, narrated by a nameless young woman and set in the private world of wealthy New York, the dire landscape of postwar Europe, and the mythical groves of a Shakespearean isle. Beginning in the 1930s and extending through four decades, *Trust* is an epic tale of the narrator's quest for her elusive father, a scandalous figure whom she has never known. In a provocative afterword, Ozick reflects on how she came to write the novel and discusses the cultural shift in the nature of literary ambition in the years since.
