

Repentances

As an oil painting ages, its paint may become increasingly transparent, and sometimes the ghost of another painting that was painted over will reappear. When these occur, they are called repentances. It is winter of 1936, in New York. As Europe slides inexorably toward war, the Jewish immigrant community in the city is desperate to get its loved ones from the old country to America. Nathan Ebanholz is one of these immigrants. He is about to make the final payment on his wife's and young daughters' passage to America. He has found an apartment in the Bronx. But Nathan's joy is short-lived. The ship bringing Miri and Rayzela to America is already at sea, and they are not on board. The novel is set in two parts. The first part deals with the consequences of a terrible lie. As a result, a crime is committed, two crimes in fact, a kidnapping and a murder. The lie and the subsequent crime impact the lives of all the characters. In the second part of the novel, the past and the present meet head-on. An engrossing tale of murder and deception ... captures the tones and accents of an earlier era while maintaining a sense of urgency and high suspense. Publishers Weekly: A remarkable standalone novel by mystery veteran Annette Meyers ... one you'll remember for a long, long time. Cleveland Plain Dealer: An extraordinary novel of repressed memory ... The action is compelling, the plot turns surprising, the period and people vividly captured. Ellery Queen Mystery Magazine: ... compelling story ... fascinating details of life in Greenwich Village ... Recommend this one to all readers of historical fiction. Booklist--
