

The Monster of Florence [Mp3 Audio] [Unabridged] [Audiobook]

Amazon Review Amazon Best of the Month, June 2008: When author Douglas Preston moved his family to Florence he never expected he would soon become obsessed and entwined in a horrific crime story whose true-life details rivaled the plots of his own bestselling thrillers. While researching his next book, Preston met Mario Spezi, an Italian journalist who told him about the Monster of Florence, Italys answer to Jack the Ripper, a terror who stalked lovers lanes in the Italian countryside. The killer would strike at the most intimate time, leaving mutilated corpses in his bloody wake over a period from 1968 to 1985. One of these crimes had taken place in an olive grove on the property of Prestons new home. That was enough for him to join Monsterologist Spezi on a quest to name the killer, or killers, and bring closure to these unsolved crimes. Local theories and accusations flourished: the killer was a cuckolded husband; a local aristocrat; a physician or butcher, someone well-versed with knives; a satanic cult. Thomas Harris even dipped into Monster lore for some of Hannibal Lecters more Grand Guignol moments in Hannibal. Add to this a paranoid police force more concerned with saving face and naming a suspect (any suspect) than with assessing the often conflicting evidence on hand, and an unbelievable twist that finds both authors charged with obstructing justice, with Spezi jailed on suspicion of being the Monster himself. The Monster of Florence is split into two sections: the first half is Spezis story, with the latter bringing in Prestons updated involvement on the case. Together these two parts create a dark and fascinating descent into a landscape of horror that deserves to be shelved between In Cold Blood and Midnight in the Garden of Good and Evil. --Brad Thomas Parsons Mp3 audio edition, unabridged and read by Dennis Boutsikaris.
