

## Seasons Of A Pastor

The journey that led to this book actually began 25 years ago when I started journaling on a regular basis. My journals have been notebooks of thoughts, schedules, questions, and sometimes garbage which needed to be dumped somewhere. I think that through the years my journals have served as my personal psychiatrist's couch. It's my desire to analyze 40 plus years in the pastoral ministry from the perspective of God changing me. Deeper than simply lessons I've learned, I guess I would share in light of things I wish I would have known - things I wish I would have had the courage to say or do - principles I wish I would have started living sooner. Each chapter will detail what I struggle to make real in my life today and wish I would have started living a long time ago.
