

You Dont Need a Prince: A Letter to My Daughter

Timeless advice on love for women of all ages! As women, so many of us buy into the myth that we need a prince to live happily ever after - or at least our version of a prince. In reality, like the Good Witch tells Dorothy, YOU always had the power. You dont need a prince to be happy. The power to be happy lies within. Now, instead of a fairytale, let a true story inspire you (or your daughter or a friend!). This book began as an email from a mother to a daughter in college at Indiana University. The daughter was going through a tough time in her relationship. She had mixed emotions about ending her current relationship because she simply did not want to hurt him. To make matters worse, she had just met another man. A man she was head over heels in love with. Amid this turmoil, her mother sent an email with words of advice about love and relationships. About the myth that every girls needs a prince. The daughter loved the email so much that she began forwarding it to her friends. And so the chain began, women reaching out to women. And now that email has been turned into a book (and ebook) for you to share with the women in your life. Thousands of women already have!

NOTE FROM THE AUTHOR: My daughter and I are honored and delighted that so many other women have gained hope and inspiration from this book that started as a simple gift of love. May this little book help you to find your happily ever after! **ONE OF THE MOST BEAUTIFUL AND MOVING BOOKS IVE EVER READ.** This is for anybody who has, or will have, a daughter. If Caroline Ingalls had ever had a computer, she would have written emails like this to Carrie, Mary, and Laura. Its a book that will remain forever on my Kindle, and when my daughter is old enough to understand it then it will be compulsory reading for her. But even if youve not got a

daughter, this book is a must-read. Its about relationships. It applies to everybody. It is short and powerful. Download it today and youll read it in all of thirty minutes. But the sentiments will stay with you forever. Mark Williams, co-author (under Saffina Desforjes) of the best-selling UK crime thriller Sugar and Spice and the Rose Red series.
